STPC	Sub-County Technical Planning Committee
UBOS	Uganda Bureau of Statistics

FORWARD

The district abstract is a comprehensive summary of statistics on the social, political and economic organisation of the district. It provides in a single convenient reference, the most useful available current data, for the District.

The user is urged to read carefully the notes at the beginning of each chapter and any footnotes accompanying the tables.

Much of the value of the abstract lies in its many references to other sources of information. Every effort has been made to provide abstract users with the most complete data collection possible.

Special thanks go to District planning unit staff for their tireless efforts towards the preparation of this Abstract.

I appeal to everyone to appreciate and use the abstract as a convenient volume for statistical reference and as a guide to sources of more information. It is my hope that the document will be of great importance to data users.

.....

Tumusiime Deusdedit

CHAIRPERSON MBARARADISTRICT LOCAL GOVERNMENT

ACKNOWLEDGEMENTS

Mbarara District Local Government is mandated to producing a district abstract. This is updated every calendar year catering for new development and changes in statistical indicators.

I am grateful to the District Planning Unit for their unique role in coordinating the completion of the document.

The major challenge during the compilation process was the inability to obtain adequate data on some indicators.

There is a need in future to put the necessary strategies in place to ensure timely production and utilization of the abstract such as induction of district stakeholders on the role of data in planning, budgeting and monitoring.

I appeal to all stake holders to appreciate and use the document for the development of the district

.....

OKELLO CHARLES

CHIEF ADMINISTRATIVE OFFICER/ MBARARA DISTRICT

EXCUTIVE SUMMARY

Mbarara District is consisted of sub counties 14, 3 divisions, 83 parishes and 757 villages. The district is well staffed at around 80 percent. Council, PAC and Land boards are fully filled. 89.6 percent of the district land is under subsistence agriculture, 16 percent under commercial agriculture and 5.4 under forest reserves.

The population projection for Mbarara district stands at 503,499 by 2014 compared to 2002 which was 361,477. The growth rate is averaged at 2.8 percent which is lower than the national one of 3.2.

Mbarara district hosts 4 hospitals, 4 HC IV, 13 HC III and 29 HC II. The immunization coverage was at 85percent; safe water coverage at 62 by 2010, latrine coverage at 92.4 percent but malaria has remained a common disease with the 62 percent of the total disease burden.

Primary school enrolment has maintained a positive trend of around 5.4 percent and currently it standards at 489,784. Drop outs have also remained high almost half of the pupils who enrol for P1 complete P7.

BACKGROUND INFORMATION

A. THE LOCATION

Mbarara District is located in the South Western part of Uganda. It borders with the following areas:

- Ibanda and Kiruhura Districts to the North
- Kiruhura and Isingiro Districts to the East
- Isingiro and Ntungamo Districts to the South
- Bushenyi District to the West.

B. SIZE AND TOPOGRAPHY

It covers an area of 1846.4 sq. km. The District has a mixture of fairly rolling and sharp hills, fairly deep and shallow valleys and flat land. The soils are loamy fertile laterite soils, suitable for cultivation

C. HISTORICAL BACKGROUND.

The current Mbarara District Local Government, came into being as a result of the people's wishes and authority of Parliament in 2005 to reduce Mbarara District to two counties and one municipality namely Kashari county, Rwampara county and Mbarara Municipality. Bukanga and Isingiro counties formed Isingiro District, Nyabushozi and Kazo counties formed Kiruhura District While Ibanda County formed Ibanda District.

Mbarara District is located in the South Western part of Uganda. It borders with the following areas:

- Ibanda and Kiruhura Districts to the North
- Kiruhura and Isingiro Districts to the East
- Isingiro and Ntungamo Districts to the South
- Bushenyi District to the West.

D. POPULATION SIZE

Population Characteristics/Profile as 2013

- Percentage District Population of National Population:.....1.5%
- Urbanization rate19%
- Average Household Population5
- Under 18 years55%
- 60 years and above5%
- Total Fertility rate7.0%
- Population size503,499
- Population distributions..... female at 51% and male at 49%

CHAPTER 1: MANAGEMENT SUPPORT SERVICES

1.1. Number of administrative units.

The District has two counties, one Municipal Council, Fourteen sub counties, Eighty three parishes, six wards and seven hundred fifty seven villages as represented below:

- Kakido p/s, Nyakayojo

CHAPTER 2: FINANCE AND PLANNING

2.1 SECTION ONE: POPULATION CHARACTERISTICS

2.1.1 Population distribution by County, by sex.

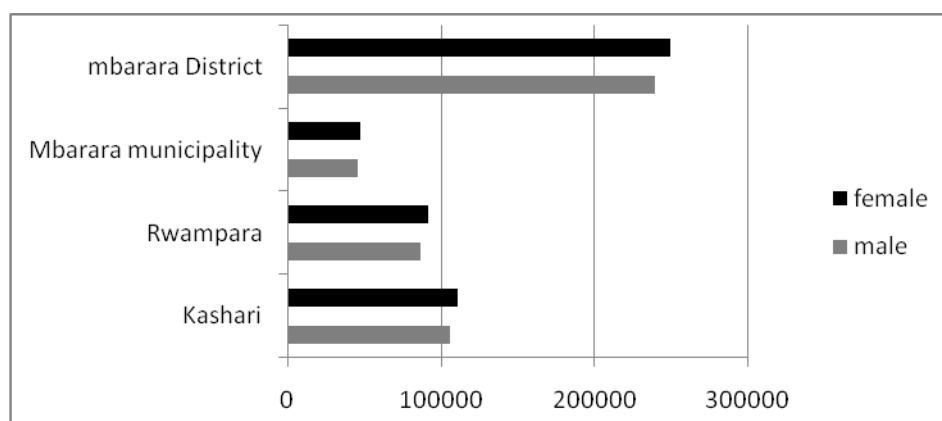

Mbarara District had a total population of three hundred sixty one thousand, four hundred seventy seven in 2002. It contributed one point seven percent of the country's total population of twenty four point two million people. The District average population growth rate is 2.8 percent which is lower than the country's growth rate of 3.2 percent.

Table 2.1.1: Population distribution by County, by sex

COUNTY	1991 POPULATION		2002 POPULATION		2013 POPULATION		Total
	Male	Female	Male	Female	Male	Female	
Kashari	59461	62623	78329	81823	106132	110866	216998

2.1.3 Population growth rate

Table 2.1.3 population growth rate by County, by sex

County	Growth Rate	
	Male	Female
Kashari	3.22	3.12
Rwampara	1.14	1.02
Mbarara Municipality	5.42	6.85
Total	2.79	2.89

Source: UBOS, Population projections 2014

The population growth rate of both females and males in the urban areas is higher than that of the rural areas

Figure 2.1.3: Population growth rate by sex, by county

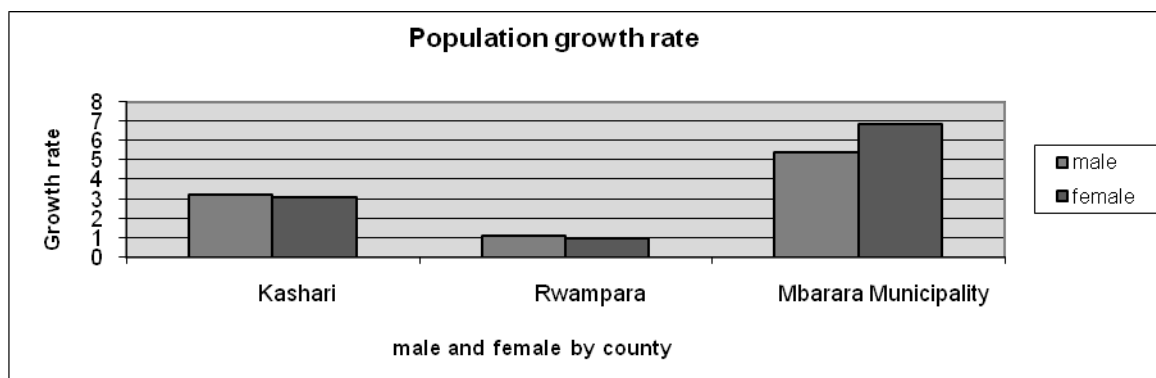

Figure 2.1.2 shows that the growth rate for males and females is fairly stable in Kashaari and Rwampara. In The Municipality, the rate is higher for females. In conclusion we note that the average population growth rate for Mbarara district is 2.84 percent.

2.1.4 Population distribution by age groups, by sex

The male to female sex ratio in Mbarara is 1:1.05 (Source: 2002 Census)

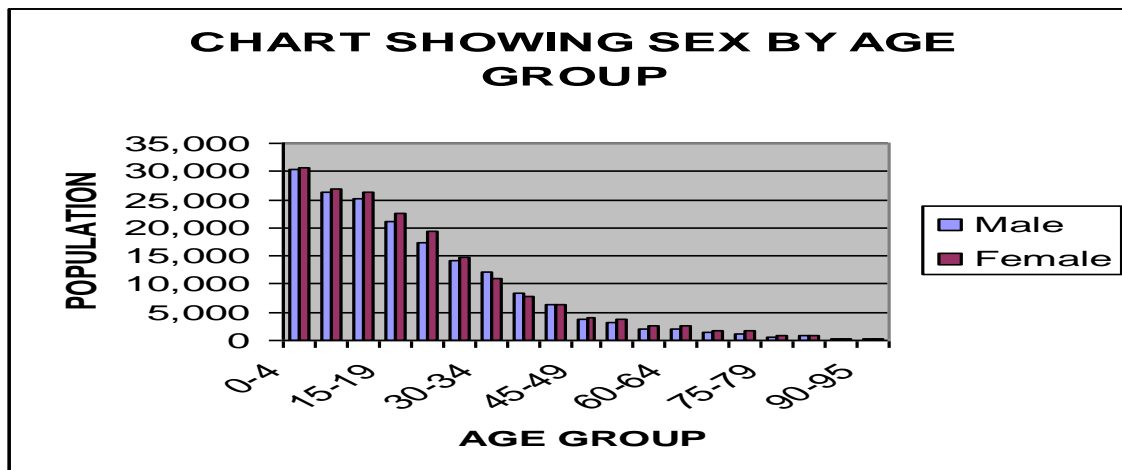

Table 2.1.4: Age groups by sex

Figure 2.1.4: Sex by age group

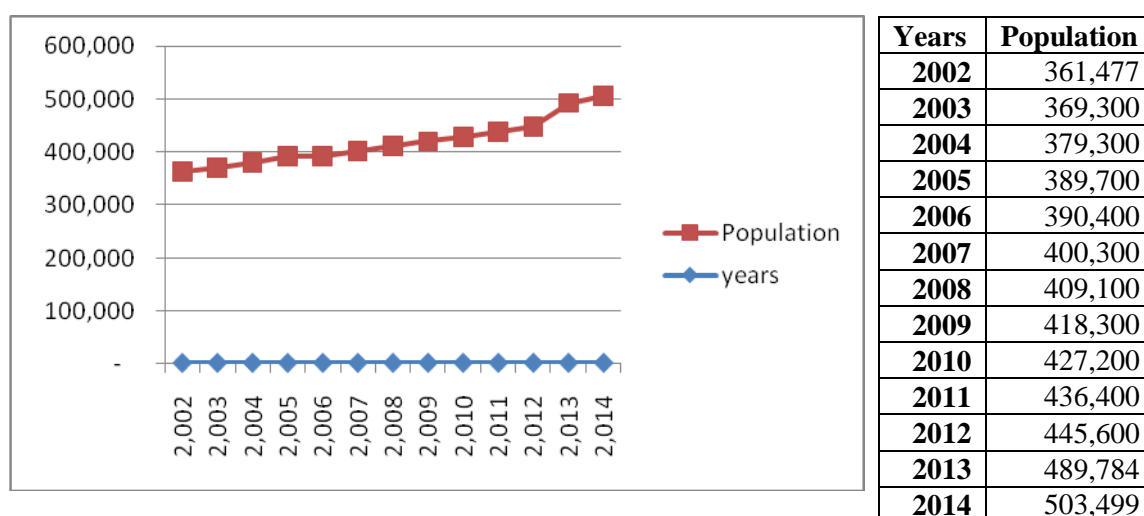

Source: 2002 Census

Figure 2.1.3 indicates that the majority of Mbarara district population lies between 0-19 years, these are dependants. The districts need to plan for their basics needs.

2.1.5 Population Projection

Population Census is carried out after a period of 10 years. During this time, population changes taken place due to, Fertility, Mortality and Migrations. Therefore there is need to project population for planning purposes. Population projections a very accurate when forecasts are done after a shorter time and the projection error increases with time.

Table 2.1.5: Mbarara District population projections from 1980-2013

The population growth rate for Mbarara district has averaged on 2.8 percent compared to the national growth rate of 3.2. But rate is high compared to the available resource accumulation; this has led to land fragmentation and hence limiting commercial agriculture in most of the areas. From 2008 to 2002 the figure includes the greater Mbarara.

2.1.6: Population Density

This refers to the number of persons per square kilometer. The higher the population density the higher the population pressure on land. Kakoba division has the highest population density in the urban center while Mwizi sub-county has the highest in rural Mbarara. Nyamitanga division has the lowest population density in urban and Bubaare for rural Mbarara.

Table 2.1.6: Population density per sub-county

County	Sub-county	Population density 2014
Kashari (Rural)	Bubaare	96.9
	Bukiro	243.8
	Kagongi	230.3
	Kakiika	115.5

	Kamukuzi	1,397.0
	Nyamitanga	564.2
District population density		213.8
Average household size		4.9

Source: UBOS Population projections

2.1.7 Urbanization

Urbanization can be defined as the increase in the proportion of the population living in urban areas and the current rate is that at 19%.

However, the definition of urbanization has been changing with time. The 2002 Census defined urban areas as only the gazetted ones while the earlier Census included un-gazetted Trading Centres with more than 1,000 people as part of the Urban Population. Today the district has one Municipal Council and four town boards that is Biharwe, Rubindi, Bwizibwera and Nyeihanga. However, the district has an advantage of being on the Highway i.e. Kabale-Kampala. For this reason, the district has many mushrooming trading Centres along the highway for example; Kinoni, Rugando and Ruti Trading Centres for Rwampara county as well as Rutooma, and Biharwe trading centres for Kashaari county.

2.1.8 Education and Literacy

Uganda's education system includes formal and informal education comprises of training at primary, secondary, and tertiary levels. It is a 7,4,2,3 system i.e. primary 7 years, secondary 4 years for Uganda certificate of education ("O level) and 2 years for advanced certificate of education (A" level) and tertiary education from 3 to 5 years. Informal education trains beneficiaries in basic skills of education like reading writing and numeric.

Tertiary education includes Universities, colleges of commerce, technical and vocational colleges, technical institutes and teacher training colleges. Admission to tertiary institution requires at least a Ugandan certificate of education (UCE).2.2.12 School attendance Status.

2.1.9 Migration

This refers to the movement of persons from their usual place of environment to another place to stay there temporarily or permanently. There are two broad categories of movement's namely internal migration and international migration. International migration in this case refers to the movement of persons across national boundaries, while internal migration refers to the movement of persons within the same nation. At the time of the census, Mbarara District had 84% of its population having been born and stayed in the District. The remaining 16% comprised of visitors to the District and immigrants. Visitors accounted for 1.7%. Of the 14.3% Immigrants, 5.4% were from Bushenyi, 1.7% from kabala, 1.6% from Ntungamo, 1% from Rukungiri. The remaining 4.6% came from various places.

2.1.10 Special Interest Population Groups

These include among others youth, persons with disabilities and orphans

2.1.10.1 Distribution of youth by sex and activity status

Table 2.1.10.1: Activity Status for the Youth

Activity status	Male	Female	Total
Working	27,810	25,114	52,924
Looking for Work	1,368	907	2,275

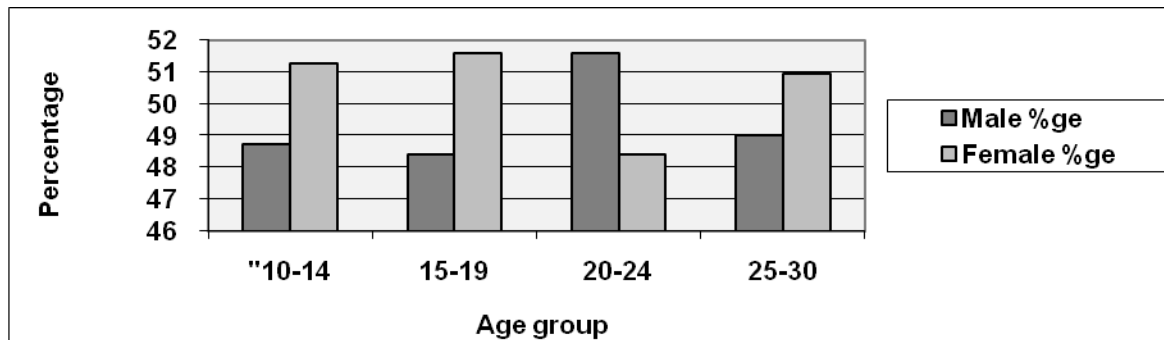

Not Working	13,764	20,824	34,588
Total	42,942	46,845	89,787

2.1.10.2 Distribution of youth by age group, by sex

Table 2.1.10.2: The young people (youth) distribution by sex and age group.

Age group	Male	%ge	Female	%ge	Total
"10-14	25,079	49	26,393	51	51,472
15-19	21,045	48	22,423	52	43,468

25-30	17,633	49	18,326	51	35,959
Total	81,146		83,466		164,612

Figure 2.1.10.2: Population composition by age and sex

The youth account for 45.5% percent of the District population. Females are more than males in all age groups except 20-24.

2.1.10.3 Distribution Persons with Disabilities

According to 2002 Census there were 11605 persons with disabilities; this constitutes 3.2% Of the total population.

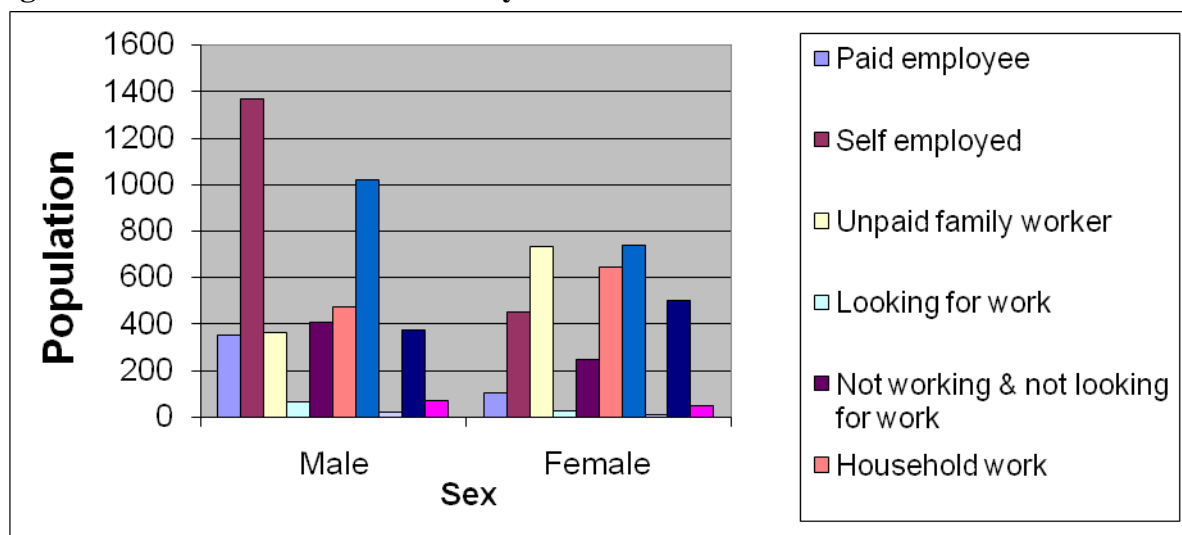

Table 2.1.10.3: Type of Disability by Age Group for the Population

Type of disability	Age Group				Total
	0-17	18-30	31-59	60+

Others	84	63	97	34	278
Total	2,665	1,672	2,310	1,781	8,428

2.1.10.3 Economic activities by status for the disabled

Figure 2.1.10.3: Economic activities by status for the disabled

We note from the above graph that most disabled males are self employed, while most females are unemployed female workers. We also observe that we have more male disabled students than females.

The number of disabled males and females looking for work are less than one hundred.

2.1.10.4: Literacy by sex for the disabled

Table 2.1.10.4: Literacy by sex for the disabled

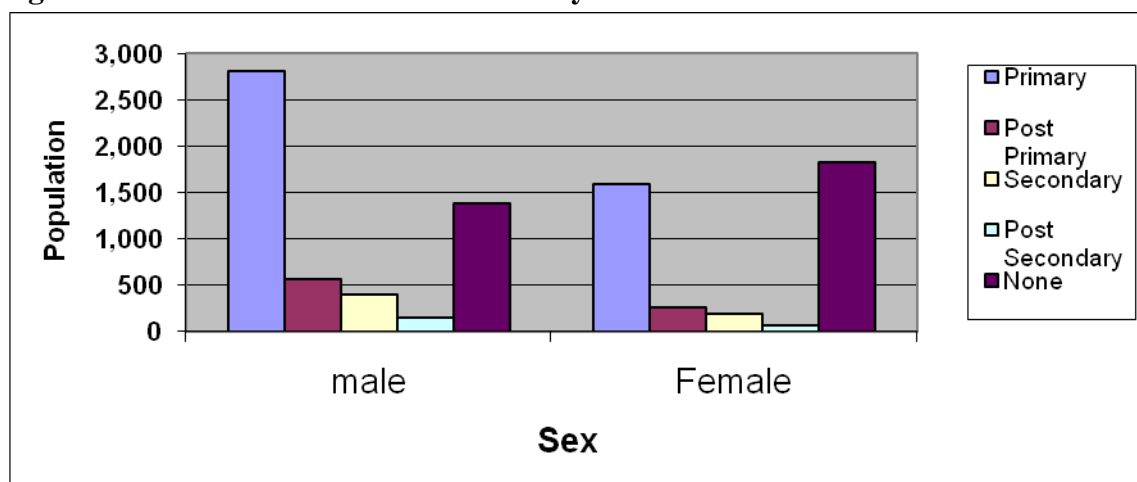

Literacy	Male	Female	Total
Literate	2,799	1,459	4,258
Illiterate	1,293	1,704	2,997
Total	4,092	3,163	7,255

2.1.10.5 Educational attainment by sex for the disabled

Table 2.1.10.5 Educational attainment by sex for the disabled

Grade Completed	Male	Female	Total
Primary	2,800	1,589	4,389
Post Primary	564	265	829
Secondary	407	190	597
Post Secondary	157	75	232
None	1,388	1,822	3,210
Total	4,752	3,676	8,428

Figure 2.1.10.5 Educational attainments by sex for the disabled

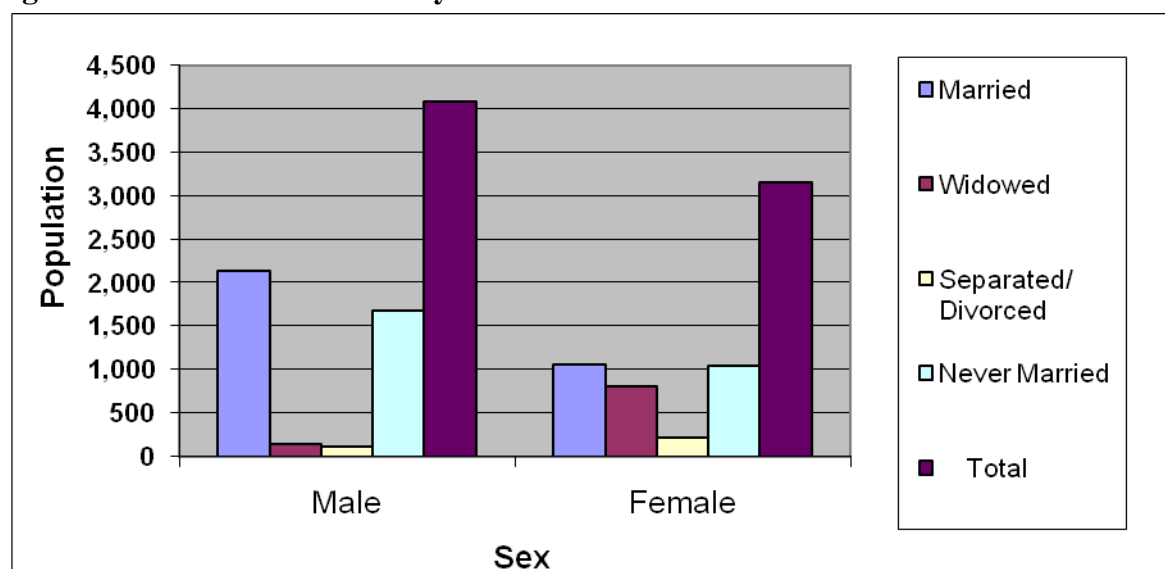

From the above figure we note that there are more males who completed primary education than females. We also note that there are more females who did not go to school at all. For both male and female both that have attained a level of post secondary education are less than five hundred in the whole district.

2.1.10.6 Marital status by sex for the disabled

The figure below shows the marital status of people with disabilities in Mbarara by male and female. We note that most disabled men are married while the number of disabled females who are married and those who never married are equal. We also note that most disabled females are widowed. The number of disabled females who separated with their spouses is more than males. A very big percentage also of disabled men is never married.

Figure 2.1.10.6: Marital status by sex for the disabled

CHAPTER 6: NATURAL RESOURCES

6.1 Environmental sanitation

Table 6.1: Environmental sanitation

Item	No.	Comment
Number of solid waste collection points	71	Within Mbarara Municipality
Number of landfills	1	Kenkombe sanitary Mbarara Municipal Council
Length of storm water drainage	15 km	In Mbarara Municipality
Number of waste disposal points in LG	12	In 4 Town boards
Number of abattoirs by condition	3	No functional waste water treatment facility

6.2. State of the Environment in the district

6.2. Prevalent pollution by type

Type of pollution	Location/Sub-County
Waste water pollution	Urban areas mainly Mbarara Municipal Council and upcountry rural growth centres
Non-point serve pollution	District wide
Industrial pollution	Milk factories and Nile breweries in Mbarara Municipal Council
Agro-Chemical pollution (Acaracides)	District wide due to location of spraying places near water bodies or wetlands

6.3. Number of Factories by category

6.3: Number of Factories by category

Category	No	Comment
Milk factories	6	Challenges of waste water management and disposal of plastic/polythene materials.
Steel rolling factories	1	Safety hazards No protective fears
Bakeries	5	Poor housekeeping condition
College Industries	10	Environmental standards not adhered to due to failure to conduct environmental audits

6.4: Waste management

Table 6.4: Waste management

Item	No	Comment
Number of bunkers	6	
Number of garbage trucks	10	One with self loading provision
Number of refuse skips	71	Overflowing of garbage
Number of factories/petrol stations with waste water treatment facilities	20	Existing of oil interceptors to newly constructed stations mitigate water pollution.

6.5: Tree Planting

Table 6.5: Tree planting

Item	No	Location	Type trees
Nursery beds established and maintained	50	District wide	Assorted tree species with variety of fruits
Trees planted annually	60,000	District wide	Mainly pine and eucalyptus
Commercial tree growers	85	District wide	Mainly involved in pine for carbon Roding
Common tree species	2	District wide	Pine supply, eucalyptus
Common pests and diseases of trees	2	Wilt and bright	pin
Tree species planted in district	5	District wide	Dominant species fines eucalyptus mangoes and orange

6.6: Charcoal Burning

Table 6.6: Charcoal/timber trade

Item	Location	No	Comment
Licensed charcoal dealers	District wide	38	Not involved in tree planting
Licensed timber dealers	Urban area	45	Mainly involved in eucalyptus timber, soft wood and Hard wood from DRC

Area under wild game (gazetted) – Lake Mburu National Park=260km³ but also lies in Kiruhura and Isingiro District

6.7: Location of Rivers, Swamps and Lakes

Table 6.7: Location of Rivers, Swamps and Lakes

Rivers/wetlands/water bodies	Location/sub-county	Status Permanent/seasonal
River Rwizi wetlands	Rwampara and part of Kashari	Counties-Permanent
Rubindi Wetland	Rubindi/Kagongi	Permanent
Nyakishara wetland	Bubare,Rwanyamahembe	Permanent
Rwenjuro wetland	Kashare/Rubandi	Permanent

6.8: Land degradation problems and causes

Table 6.8: Land degradation problems and causes

Issue	Causes	Area coverage
Loss of soil fertility	Poor agricultural	District wide
Soil erosion	Poor & bus burning	Rwampara County
Deforestation	Search for forest products	District wide
Poor solid waste management	Indiscriminate dumping of waste	Urban area
Bush burning	Need for fresh pasture, malice and ignorance	Rwampara county. Bubare, Biharwe and Kakiika subcounties.

6.9: Forestry

Table 6.9: Type of forest by size (Gov't/private forest reserves, District forest reserves)

Name of forest	Size of forest (ha)	District Forest reserve
Bugamba	1210	Mbarara
Rwoho	9073	Mbarara, Isingiro/Ntungamo

CHAPTER 7: COMMUNITY BASED SERVICES

7.1.1 General community issues

The Department contributes to the achievements of the District's mission which is to serve the community through the coordinated delivery of services which focus on National and local priorities in order to promote sustainable social and economic development of the district.

The department has been at the forefront of community mobilization and sensitization for economic, social and political development. Over 500 women, youth and PWDs leaders - have been mobilized and sensitized on income generating activities.

7.1.2: FAL Classes

FAL programme has raised the literacy level up to 85%. Female attendance is at 75.8% as compared to 24.2% of the males.

Table 7.1.2: Number of FAL instructors and learners by Sub county 2013/1014

CHAPTER 8: PRODUCTION AND MARKETING

8.1 Agriculture

The agricultural production office, performs the following functions

Monitoring, supervising and providing technical back up to field programmes and staff.

- Coordinating the information and development of strategic plan and monitoring its effective implementation.
- Ensuring timely preparation and submission of annual and quarterly work plans, budgets and reports.
- Identifying, procuring and disseminating appropriate technologies to farmers, producers and users.
- Ensuring proper management of production facilities i.e. vehicles, office equipments promoting, attracting and supporting investors, authorizing and licensing traders.
- Organizing and attending committee meetings and council sessions.

8:1:1 Crops

Table 8.1.1: Common crops grown in Mbarara

8.2 Fisheries

The fisheries Department takes care of fish farming in Mbarara District. The number of fish ponds in Mbarara District is 420 with varying sizes between 100m² – 3000m².

The average production is at 800.000 fish per harvest which take place twice a year (every 6 months) valued at 240.000.000. However much of this fish are consumed at family level without recording its value.

8:2:1 Types of Fish stocked in the ponds are:

Tilapia Nilotic, clarias M.carp and T zillii

8.2.2 Major diseases and predators

The most common disease is the fungal infection. Predators include snakes and birds
